PROFILE

A challenging position in an innovative and forward-thinking organization that effectively utilizes my technical skills and abilities while providing opportunities for continuous learning and growth.

I am an eager and dedicated Computer Science graduate, committed to contributing to organizational success through strong problem-solving skills and adaptability.

EDUCATION

Bachelors of Technology in Computer Science and Engineering, Sathyabama Institute of Science and Technology '22 — Present
Chennai, India

Board of Intermediate Education, Narayana Junior College, MPC '20 — '22

Board of Secondary Education, Sri Chaitanya (E.M) School '19 — '20

PROJECTS

AI-ASSISTED DIAGNOSIS OF RETINOL DISEASES USING FUNDUS IMAGES

- Developed a deep learning model to detect and classify retinal diseases from fundus images, improving diagnostic accuracy.
- Used CNN architectures with transfer learning and applied preprocessing techniques for enhanced performance.
- Trained on real-world datasets and handled class imbalance using data augmentation.
- Enabled faster and reliable detection to support clinical decision-making and improving patient outcomes.

VOICE CONTROLLED AUTOMATED NEWS READER

- Developed a voice-controlled application to fetch and read real-time news articles, enabling hands-free access to information.
- Integrated Speech Recognition and Text-to-Speech (TTS) technologies for seamless voice interaction and audio output.
- Used news APIs to retrieve the latest headlines based on user preferences such as category and language.
- Implemented basic Natural Language Processing (NLP) to interpret voice commands and improve user experience.
- Enabled fast, accessible, and convenient news consumption without manual intervention.

SKILLS

Technical SQL, JAVA, PYTHON

Tools VS code, Adobe Photoshop, Slack, SQL

Soft Skills Communication Skills, Leadership, Critical Thinking, Time Management

Languages ENGLISH, TELUGU

INTERNSHIPS

Machine Learning Intern

Imarticus Learning

- Developed a voice controlled automated news Reader mini project using ML algorithms

AWS cloud Intern

VILT

- Designed and developed a voice controlled automated news reader mini project for hands free news access.

CERTIFICATES

Machine Learning, IMARTICUS

Java, ORACLE

AWS, VILT

Fundamentals of Encryption & Quantum-Safe Techniques, IBM

DECLARATION

- I here by declare that all the information provided in my resume is true to the best of my knowledge and belief.
