

Summary

"As an aspiring Computer Science and Engineering B.Tech student, I am eager to apply my academic foundation to real-world challenges. My curriculum equips me with a strong understanding of core technical principles. As a fresher, I am actively seeking opportunities to leverage my problem-solving skills and technical knowledge within the tech industry, aiming to contribute to innovative projects and gain practical experience."

Work Experience

Data Analytics Job Simulation

-  Deloitte & Forage
-  Jul 2026 - Jul 2026
- Data Analytics Virtual Experience | 12 *July 2026*
  - Completed practical tasks in data analysis and forensic technology mimicking real corporate workflows.
  - Developed foundational analytical skills by completing simulated client briefs and industry case studies.

Data Visualisation: Empowering Business with Effective Insights

-  Tata iON & Forage
-  Jul 2026 - Jul 2026
- Virtual Experience | 26 *July 2026*
  - Data Analysis: Styled business data into clear charts to help management make better decisions.
  - Dashboard Design: Chose and built effective visuals that made complex data trends easy to understand.
  - Business Insights: Translated raw numbers into clear, actionable summaries for corporate team members.

Education

B.Tech/BE (Bachelor of Technology/Bachelor of Engineering)

-  Rise Krishna Sai Gandhi Group of Institutions, Prakasam, Andhra Pradesh
-  2023- 2027 • Graduation • Computer Science And Engineering
- I am pursuing a Bachelor of Technology in Computer Science and Engineering at Rise Krishna Sai Gandhi Group of Institutions, Prakasam, Andhra Pradesh, from 2023 to 2027. This program provides a strong foundation in core computer science principles, algorithms, data structures, and software development methodologies, preparing me for innovative roles in the tech industry.

Board of Intermediate Education

-  Sri Govindambica Parameswari Junior College
-  2021- 2023 • Intermediate
- Completed Intermediate education in MPC (Mathematics, Physics, and Chemistry) from Sri Govindambica Parameswari Junior College, under the Board of Intermediate Education, from 2021 to 2023, achieving 80.5%.

Board of Secondary Education

-  Nirmala High School
-  2020- 2021 • Tenth
- Completed my Tenth (Secondary School) education at Nirmala High School under the Board of Secondary Education during 2020–2021, achieving an outstanding 99%. Developed a strong academic foundation and essential skills in core subjects, discipline, and effective learning.

Achievements

Project Presentation – Atom Voice Assistant Robo

- RISE FUSION 2026 — RISE Krishna Sai Prakasam Group of Institutions
- Received a Certificate of Appreciation for presenting the Atom Voice Assistant Robo project.
  - Demonstrated the project's voice-assistant and robotics capabilities using Python.
  - Applied Python programming to support the robot's voice interaction and command-processing features.
  - Presented the project as a Computer Science and Engineering student.
  - Gained experience in Python development, technical presentation, project demonstration, and communication.

Skills

- Dashboard creation
- Sql
- Power BI
- Python
- Excel
- Tableau
- Genative Ail Tools
- Data Visualization
- Data Cleaning
- Business Sense
- Pandas
- Problem Sloving

Certificates

Data Analytics (Power BI & Data Visualization)

-  [Certificate Link](#)
- Completed online training in Power BI and Data Visualization.
  - Built interactive dashboards for data cleaning, modeling, and visualization.
  - Applied data analytics and computer science concepts to real-world datasets.

Data Analytics With Tableau

-  [Certificate Link](#)
- Virtual Data Analytics Intern | SmartBridge & APSCHE
- Successfully completed a certified technical internship program. Developed core competencies in data analytics and visual intelligence by designing advanced business dashboards using Tableau.

Data Analysis Course

-  [Certificate Link](#)
- Data Analysis Course — GROWAI | Certified Data Analyst | March 2026
- Completed a 3-month Data Analysis training program covering Python, Power BI, and Microsoft Excel.
  - Gained hands-on experience in data cleaning, preprocessing, analysis, and visualization.
  - Created interactive dashboards and reports using Power BI.
  - Used Python and Excel for data analysis, manipulation, and reporting.
  - Applied analytical techniques to derive insights and support business problem-solving.
